This game literally gave me the chills. Great job, Tender Claws. really good game... worth buying!. worth every cent!. wow its so cool befor you won this award. A fun first chapter of an adventure series in the vein of King's Quest and Loom. While some of the puzzles aren't too taxing, the game itself was very enjoyable for the story.

Childhood game you can play for hours still is good even as an adult! 8/10 overall rating. Very short game in general its like a mini-game with a highscore thing built in where you just play more and more just to get an affinity of points.. i love it! , some notes, hope we could open up settings graphics, audio, sampling etc, next i hope the drums wont bypass - meaning it wont go thru the drums since whenever the drum sticks came under it will still hit it , making me do double taps rather than one over all ! i wasnt dissapointed , i wanted to try this game soon as i saw it on the list !. this game is ♥♥♥♥♥♥♥♥♥♥

11/10. Only doing this because of Hit.. First few hours of the game is very similar to Chapter 1 but with the addition of the protagonist's mysterious imouto and with slight changes on how the characters were introduced. This chapter features Amano Angeline Hotaru as the main heroine and I have to say this is the highest dose of tsun I have ever been exposed to in a VN.

Like other works from the same developer it excels with the quality of visuals. It is not fully animated but they worked on blinking eyes, moving mouths and characters turning around. It made use of the same audio assets as ch1. I was really looking forward to watching the game's OP but the featured video on the store page wasn't in the game. Memories for this chapter only featured CG and music; the only animated video for the ending wasn't available in the extras. Chapter 2's overall plot is weaker than eden* and ef but it made me remember how much I enjoyed slice of life back when I've read Supipara ch1.

The ending scene leaves more questions about the overarching storyline. It left me wanting to know more about the titular character "Alice the magical conductor" but it still won't be touched up with the sequel as the ending also suggests that chapter 3 will feature Yuuzuki Momiji.

I recommend this to all fans of Minori's previous works. I'm really hoping that the eventual completion of all the chapters will be far more impactful than any one ending; something akin to Ef: A Fairy Tale of the Two or DCIII.. You should tell people that they only recieve two of the four promised, before they buy it and expect to recieve all four. I can't give this a neutral rating. ok i did find the other two games if you go to the properties tab and then beta tab then click on unpolished but i can't get the island to work with my cv1 everything else works all ready in my cv1 not sure why the island won't, it only is on my monitor. If i can figure out how to get it to lanch in my rift i will change my rating to thumbs up.

OVERWHELMING:

It's been two weeks since we launched *DUSK* in Early Access - and as you've no doubt noticed - the response is now officially, undeniably, **OVERWHELMINGLY POSITIVE**.

The team is ecstatic, thrilled and humbled - **but this is no accident.. #MinistryofNews:**

Today, the Wise Leader signed a decree on holding Beholder 2 Closed Beta Test in July, 2018.

It means that there are only a couple of weeks left before the test. All loyal citizens are required to complete all games purchased during the summer sale and free up time to dive into Beholder 2 Beta.

. Reality Incognita will

be converted to Unity:

Hello to all my followers,

For a specific reason, I have no choice, but to fully convert to Unity. Even now, I and my freelancers are transferring all materials to new engine. The bad side of this, that the beta, and final version will be released later than I would expect.

The good side - unlike generic Visual Studio, Unity allows to run games on all systems, not only Windows, including Mac, Linux and even Android.

Again, full conversion will take some time, hopefully not very long. I apologize for that, and will do my best to do everything as fast as I can.. **First ever World War 3 AMA, June 15th:**

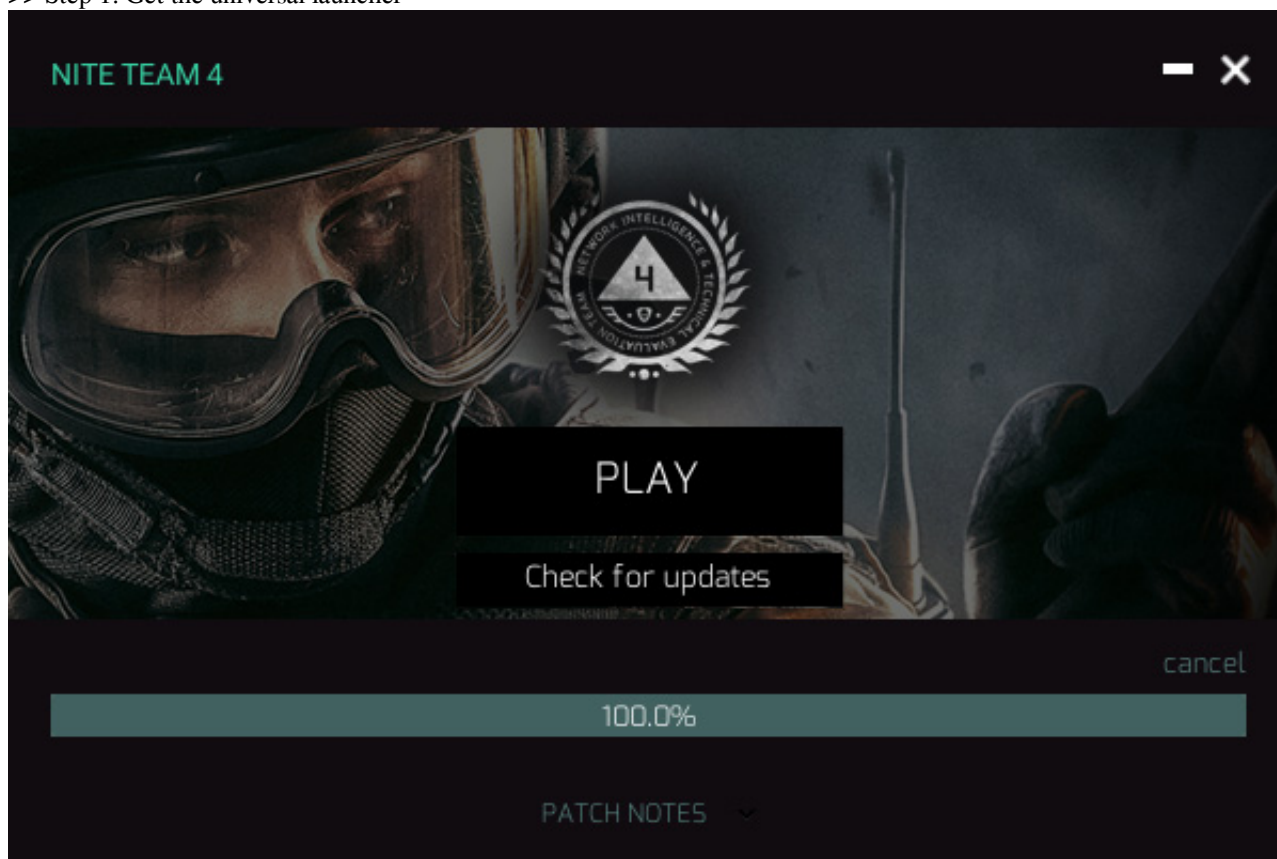

We'd like to invite you to our first ever AMA that will take place on our official Discord channel (coming soon) on Friday, June 15th, 5pm-7pm CET (9am-11am PDT, 11am-1pm EDT).. **Beta Server UP:**

Here are the patch notes for today's update. Thanks again everyone for submitting bugs to us.

Patch Notes - Version 0.45 - 4th August 2017. **Devblog #3: Rocket Engines and Motherships:**

Last week we headed off to PAX Australia and showed off our basic progress on Motherships. Things had, really, only just come together that week. So we were pretty relieved to be able to show anything off.

Motherships represented the culmination of three months worth of refactoring and the game is substantially better for it.
